Follow in the footsteps of great explorers

Although the existence of an Antarctic Continent was mentioned by Aristotle from Antiquity, it wasn't until 1773 that James Cook crossed the Antarctic Polar Circle for the first time. Other explorers would follow in his footsteps and undertake expeditions to the South Pole; Jean-Baptiste Charcot, Adrien De Gerlache, and Sir Ernest Shackleton would open the way to the most extreme of all continents. Aboard your ship, we invite you to retrace the journeys of these pioneers, who set out to conquer final frontiers, and travel to the very ends of the Earth... Some journeys cannot be described, you simply have to experience them.
