Itinerary

Day 1: Arrival in Longyearbyen, Svalbard (hotel night)

Welcome to Longyearbyen, the administrative center of Svalbard and starting point of our Arctic expedition! At the Longyearbyen airport, you will be greeted by our staff and transferred to the hotel, which has been arranged by us and is included in the price of the itinerary. You will then be free to explore the charming, walkable town center.

We recommend starting your discovery of this fascinating Norwegian High Arctic territory at the excellent Svalbard Museum, where you can also purchase hard-to-find polar books and maps. Afterward, you can enjoy an excellent dinner at one of Longyearbyen's many delightful restaurants. If you are still awake at midnight, you will notice the sun has not set. In fact, the sun will not set for the entire

duration of our time in Svalbard.

Day 2: Welcome Aboard!

After breakfast at your hotel, the morning is yours to enjoy Longyearbyen. Take in the views of icy fjords and glaciated mountains surrounding this historic former coal-mining town. Take advantage of shopping for souvenirs or some last-minute necessities such as cold-weather gear. Just remember, you will soon receive your very own parka to keep and waterproof boots to borrow on board the ship. For lunch, Longyearbyen offers quick and easy meal options including the most northerly pizzas and kebabs in the world.

In the afternoon, you will be transferred to the pier where we will warmly welcome you aboard the deluxe expedition vessel M/V Sea Spirit. Get settled in your spacious suite and explore the ship that will be your comfortable home during the extraordinary adventure to come. After getting underway, a full schedule of events kicks off with informative briefings and introductions from your expedition staff. After the first of many delicious dinners on board, step out onto the open decks to admire the gorgeous scenery in 24-hour daylight as we pass through the wildlife-rich waters of Isfjorden.

Day 3-11: Svalbard and Polar Ice Edge

The goal for this voyage is a circumnavigation of Spitsbergen, the largest island of the Svalbard archipelago. Along the way, we hope to experience the many facets of this incredible High Arctic territory. Our exact schedule and route will be shaped by weather and ice. We also expect there will be enough sea ice around to support ice-dependent animals such as polar bears and walrus.

During this voyage, we expect to encounter significant sea ice concentrations in the enormous Northwest Svalbard Nature Reserve. In this remote and isolated region, ice can persist very late into the summer, giving it a truly polar character. This reserve covers the rugged northwestern parts of Spitsbergen and the entirety of Nordaustlandet, the second largest island in Svalbard. Here we find

the massive Austfonna ice cap, part of which meets the sea along the 45-kilometer ice cliff known as Bråsvellbreen—one of the great wonders of the Arctic world. The polar desert environment supports little in the way of vegetation but

hosts prodigious numbers of seabirds at breeding sites such as the spectacular sea cliffs of Alkefjellet. The probability of encountering polar bears and walrus in this icy wilderness is very high.

Also on our route is Northwest Spitsbergen National Park, the crown jewel of Svalbard's scenic wonders. Here we find deep fjords flanked by serrated mountain peaks and immense tidewater glaciers calving icebergs into turquoise waters. The whole area is alive with migratory Arctic seabirds. On this voyage, we are just in time to witness the return of millions of murre, guillemots and little auks to the small islands, mountainsides and sea cliffs where they breed within the park. This is also a great area to encounter marine mammals, including various kinds of whales and Arctic seals. Set among this incredible scenery and wildlife activity, we also find evidence of Svalbard's earliest sealers and whalers.

Human habitation along our route can be found at Ny Ålesund, a former mining town and airship base that is now home to an international community of Arctic researchers. This is one of the world's most northerly settlements where we find a gift shop and a post office. We also visit a famous airship mast that was a starting point of the North Pole expeditions by Umberto Nobile and Roald Amundsen. This place played an important part in the history of polar exploration.

The ambitious Svalbard and Polar Ice Edge route offers a comprehensive view of the Arctic's many faces. Every day offers something new and exciting. We will not miss a single opportunity to encounter amazing Arctic wildlife, to witness incredible polar scenery, and to walk in the footsteps of historic expeditions that came before.

Day 12: Disembarkation in Longyearbyen, Svalbard

After filling up with one last buffet breakfast on board, we bid you farewell in Longyearbyen. We provide transfers to the airport and flight to Oslo. By this time, you may already be making plans for your next amazing trip with us into the polar worlds!
